# Abhay

abuak460@gmail.com | +91 8628909240 | Dharamshala LinkedIn↗

## CAREER OBJECTIVE

Motivated and enthusiastic Computer Science enthusiast with hands-on experience in Java development and AI/ML, offering skills in building real-world applications from desktop systems to ML solutions and aiming to contribute strong technical abilities to data science projects.

## WORK EXPERIENCE

**Data Science • Internship** May 2026 - Present
Internshala, Virtual

Applying Python, SQL, Excel, and Power BI to clean, analyse, and visualise real-world business datasets Conducting statistical analysis and exploratory data analysis (EDA) to surface data-driven insights for reporting

**Full Stack Development • Internship** Jan 2026 - Jun 2026
CS Soft Solutions, Chandigarh

- Developed responsive web pages using HTML5, CSS, and JavaScript.
- Built and integrated REST APIs using Spring Boot for backend functionality.
- Collaborated on the Decentralised Voting App, contributing to front-end development with React.js.
- Worked with Node.js and MongoDB to support application backend and data handling.

## EDUCATION

**B.Tech, Computer Science & Engineering** 2022 - 2026
Government College Dharamshala

Percentage: 78.00%

**Senior Secondary (XII), HPBOSE** 2021
Mother's Pride Public School, Bara

Percentage: 92.20%

**Secondary (X), HPBOSE** 2019
Mother's Pride Public School, Bara

Percentage: 79.00%

## TRAININGS / CERTIFICATIONS

**Web Development**
Jan 2026 - May 2026

CS Soft Solutions, Chandigarh

- Developed responsive web pages using HTML5, CSS, and JavaScript.
- Collaborated on the Decentralised Voting App, contributing to front-end development with React.js.
- Worked with Node.js and MongoDB to support application backend and data handling.

**Data Science**
Jan 2026 - Aug 2026

Internshala, Virtual

- Introduction to Data Analytics
- Data Management and Analysis with MS Excel
- Data Visualization (Power BI)
- Python for Data Analysis
- SQL for Data Analysis
- Machine Learning Fundamentals
- Natural Language Processing
- Deep Learning

**Data Science Placement Course With AI**
Jan 2026 - Aug 2026

Internshala Trainings, Virtual

## PORTFOLIO

Portfolio link ↗

## PROJECTS

### Predictive Modelling on a Web Scraped Data with a Power BI Dashboard ↗

Jul 2026 - Aug 2026

- Designed and executed a predictive modelling project incorporating machine learning, web scraping, and data visualization.
- Built a Python-based script to scrape and preprocess raw data from real-world sources, handling inconsistencies and missing values.
- Utilized Power BI to construct an interactive dashboard, presenting predictive insights in an accessible format.

### Decentralised Voting App (VoteSetu) ↗

Feb 2026 - Jul 2026

- Developed a blockchain-based voting system using Solidity smart contracts, React.js frontend, and Node.js backend.
- Used MongoDB and Ethers.js to manage application data and blockchain interactions.

### Financial Risk Analysis with Python ↗

Jul 2026

- Designed a Python-based tool for analyzing financial risks using customer transaction data.
- Utilized data processing techniques including cleaning, segmentation, and anomaly detection to uncover key insights.
- Built visualizations to present trends, overdraft patterns, and risk indicators effectively.

### Market Basket Analysis with Python ↗

Jul 2026

- Executed Market Basket Analysis on e-commerce datasets to explore purchasing trends.
- Developed clustering models using Python libraries including pandas, NumPy, and scikit-learn to derive valuable insights.
- Enabled personalization and strategic decision-making in marketing and product offerings.

### Logistics Optimization for Delivery Routes ↗

Apr 2026 - May 2026

- Developed a SQL-driven logistics approach to optimize delivery routes for large e-commerce operations.
- Carried out data preparation and cleanup, dealing with null values, duplicates, and date formatting issues.

### Retail Customer Retention Analytics ↗

Apr 2026

- Built an interactive Customer Retention Analysis Dashboard employing Power BI to unify customer demographics, transactions, and loyalty data.
- Utilized Power Query for data transformations, developing calculated columns and DAX measures to analyze churn, repeat purchases, and CLV..

### Social Media Analytics for Strategic Branding ↗

Feb 2026

- Designed an Excel-based solution to extract, clean, and analyze social media metrics.
- Performed ROI and correlation analysis to link ad investments with follower growth and campaign outcomes, facilitating strategic brand insights.

## SKILLS

- Java
- Python
- HTML
- CSS
- JavaScript
- Swing (Java)
- JDBC
- MySQL
- NumPy
- Pandas
- scikit-learn
- Streamlit
- Git
- GitHub
- VS Code
- Jupyter Notebook
- Object Oriented Programming (OOP)
- REST API
- HTML 5
- Spring Boot
- Data Analytics
- MS-Excel
- Data Interpretation
- English Proficiency (Spoken)
- English Proficiency (Written)
- Research and Analytics
- Generative AI Tools
- ChatGPT
- MS-Office
- Advanced Excel
- MIS
- Power BI
- SQL
- ETL processes
- Data Visualization
- Statistical Modeling
- Matplotlib
- Seaborn
- Machine Learning
- Data Science
- Natural Language Processing (NLP)
- Predictive Analytics

- Deep Learning
